

CSWC Operational Period Summary 0600 May 26 to 1800 May 26 2014

Cascadia Response Drill – State Operations Center - May 2014

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Major Construction U.S. Highway 50, Sacramento, Sacramento County

- Major construction began April 22, 2014 on a section of U.S. Highway 50 in Sacramento between 18th and 24th Streets.
- Phase 1 of the construction on Westbound Highway 50 starts on Tuesday, 05/27/2014.
- Please see “Fix 50” slides for additional information, including alternate routes.

Hunter Incident, Vegetation Fire, Mariposa County

Per CAL FIRE and Cal OES FDO as of 1830 hours

- Location: Hunters Valley Access Rd and Bears Valley Rd, Mariposa County
- Size: 300+ acres, 0% contained
- Difficult access, moderate rate of spread
- 1 structure destroyed
- 100 homes threatened in the community of Hunters Valley
- Local government resource commitment: 2 Water Tenders, 2 Engines, 2 Overhead

Significant Weather

- Fire Weather Watch in effect from Tuesday afternoon through Tuesday evening for combination of strong winds and low relative humidities for Modoc County.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An approaching weak front will bring light rain showers to Del Norte and Humboldt Counties early this morning; otherwise, northwest California will remain generally fair. Temperatures will begin to cool behind this front and bottom out Wednesday morning.

San Francisco Weather:

High pressure will keep clear and warm conditions over the Bay Area through today with upper 60s to upper 70s at the coast and 80s to lower 90s inland. Cooler weather will return for Tuesday through the weekend as two dry systems drop southward toward the forecast area.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Temperatures will cool slightly today, and then cooler air will move over the region through the week as low pressure approaches.

Hanford Weather:

Memorial Day will be dry and much warmer than normal as high pressure remains over central California. Temperatures will then trend downward through the week as an upper low pushes inland across the Pacific Northwest and provide the forecast area with a cool onshore flow.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

The warming trend will continue through Tuesday. A weak trough of low pressure will bring a cooling trend and clouds to the forecast area starting midweek.

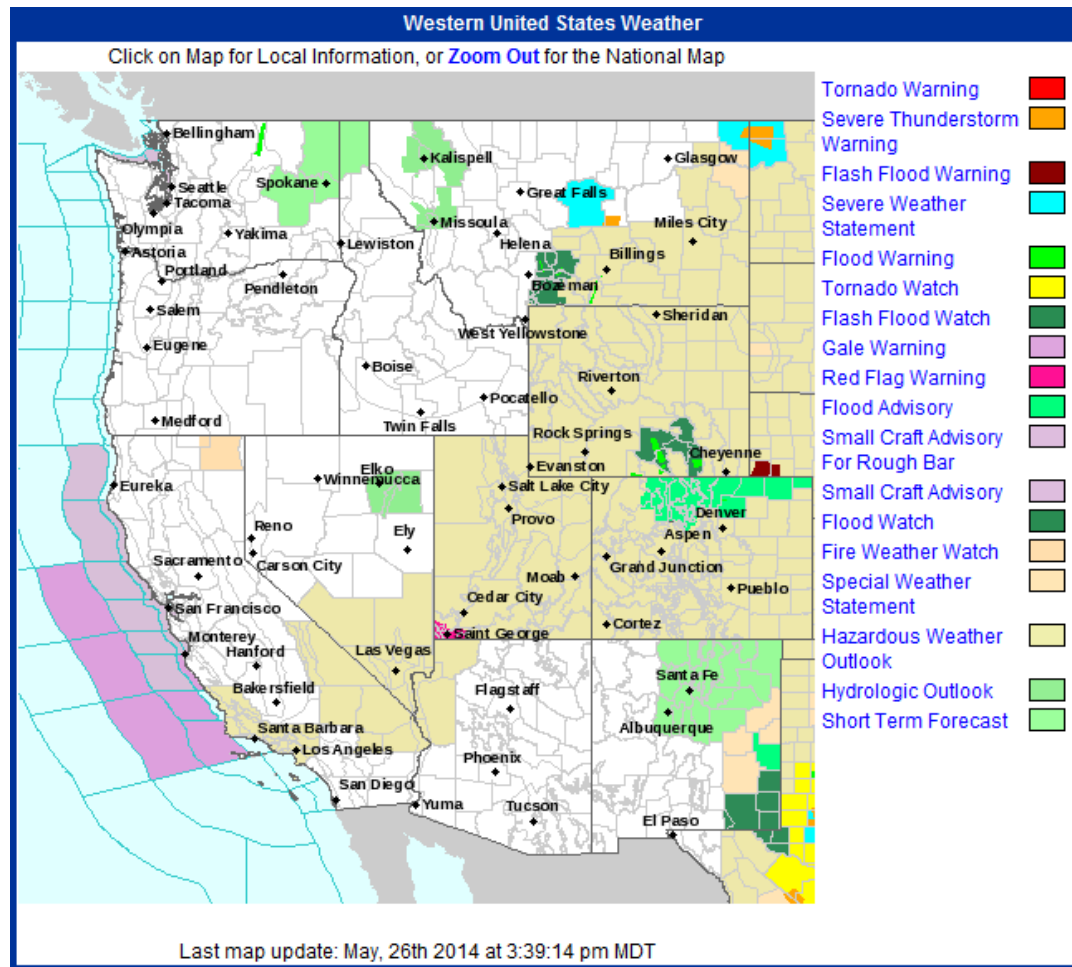

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure will bring inland warming through Tuesday with a slightly shallower marine layer. A weak trough of low pressure near the West Coast will bring slow inland cooling on Wednesday and Thursday with brief warming possible Friday. The trough of low pressure near the West Coast will strengthen next weekend with greater cooling and deepening of the marine layer. Onshore flow will bring locally gusty west winds to the mountains and deserts each late afternoon through late evening.

Southeast California Weather:

Warmer and drier conditions will return to the desert southwest early this week as high pressure rebuilds back northward over the region. Slightly cooler conditions and a slight chance for showers is possible by late in the week as moisture increases across the forecast area.

“Fix 50” Information

Major Construction U.S. Highway 50, Sacramento, Sacramento County

- Major construction is scheduled on a section of U.S. Highway 50 in Sacramento between 18th and 24th Streets.

2014 Project Dates

Roadway Construction Timing:

Westbound Highway 50: May 27 – June 25

Phase 1: May 27 - Jun 10

- Only one lane will be open on the Connector ramp from northbound Highway 99 to westbound Highway 50
- 2-3 through lanes will be open
- Eastbound traffic will be fully open as normal with no impact

Phase 2: June 11 - June 25

- During Westbound, Phase 2 (June 11-June 25) the following ramps will be closed: - 16th Street Off-Ramp - Connector ramp from westbound Business 80 to westbound Highway 50
- Only one lane will be open on the Connector ramp from northbound Highway 99 to westbound Highway 50
- 2-3 through lanes will be open
- Eastbound traffic will be fully open as normal with no impact

[Fix 50](#)

“Fix 50” Information

2014 Project Update – Westbound construction begins Tuesday May 27, 2014

Fix50 westbound lane closures to begin May 27

Major traffic congestion is expected as Phase 1 on westbound Highway 50 begins

The Fix50 project will begin the second half of major traffic-interfering work starting May 27, rehabilitating the westbound lanes of the W-X Viaduct on U.S. Highway 50. Eastbound work was completed May 16, 5 days ahead of schedule, and will remain fully open.

The first phase of the westbound stage will close the 3 inside lanes of the W-X Viaduct between 18th and 24th Streets in Sacramento, as well as one lane of the northbound Highway 99 connector to westbound Highway 50. The process of shifting and closing lanes will begin at 9 PM Monday night, May 26 and be fully configured for westbound Phase 1 work by early morning, Tuesday, May 27. Phase 1 is scheduled to run until June 10, and will be followed by westbound Phase 2 which is scheduled to be completed by June 25.

"Traffic delays are expected to be longer with the westbound work than they were with the eastbound side due to additional ramp closures and the larger volume of commuters from El Dorado and eastern Sacramento Counties," stated Caltrans District 3 Director, Jody Jones. "Caltrans urges the public to plan alternate routes well in advance, avoid any unnecessary trips, or take light rail, RT, or bike commute if you are able. Alternate routes used for the eastbound phase may not be the best routes for westbound. Information about alternate routes, detours and other transportation options is available at Fix50.com."

Speed limits in the work zone will be reduced to 55 MPH for increased safety. Also, ramp meters will be in operation from 5 - 10 AM and 2 - 7 PM and wait times may be longer to help control traffic entering the work zone area. Drivers are reminded to remain alert for sudden traffic slowing, stopping and lane changes, and urged to avoid any distractions in the work zone like phone calls or using other mobile devices. *"If you must drive through the Fix50 project area, please just be patient and pay attention to the traffic around you," warned Director Jones. "Most work zone fatalities are caused by rear-end collisions. No phone call or other distraction is worth risking your safety."*

OF EMERGENCY SERVICES

“Fix 50” Information

2014 Project Update (Cont.)

Project Schedule for Westbound Work:

Westbound work will run from May 27 through June 25 and will occur in two phases:

- [Phase 1](#): May 27 - June 10
 - The 3 inside lanes will be closed. 2 - 3 outside lanes will remain open.
 - No ramps will be closed during the first westbound phase. However, the connector ramp from Hwy 99 North to US-50 West will merge down to one lane to increase safety for travelers merging onto US-50 West into the construction area.
- [Phase 2](#): June 11-25
 - 2-3 outside lanes will be closed. Inside 3 lanes will remain open.
 - Ramp closures:
 - Connector ramp from westbound Business 80 (Capitol City Freeway) to US-50 West. Hornet Drive near Sacramento State is the alternate route.
 - Reduced lanes on connector ramp from Hwy 99 North to US-50 West (will merge down to one lane).
 - 16th Street off-ramp.

“Fix 50” Information (Cont.)

Major Construction U.S. Highway 50, Sacramento, Sacramento County

Alternate Routes:

During work in the WESTBOUND direction (May 27 – June 25):

If traveling from Rancho Cordova/Folsom to Downtown Sacramento:

- Use US-50 West to Business-80 North to “N” or “H” Street off-ramps
- Do not stay on US-50 West after Business-80 interchange

If traveling from Elk Grove/Galt to Downtown Sacramento:

- Use I-5 North to “J” Street off ramp
- Do not take Freeway-99 North to US-50 Westbound

If traveling from Rancho Cordova/Folsom to Natomas/Davis:

- Use US-50 West to Business-80 North to Watt Ave North, to I-80 West.
- Do not use US-50 West to Davis or US-50 West to I-5 North to Natomas.

If traveling on Business 80 West during Phase 2 (Closed connector ramp from Business-80 West to US-50 West):

- Get on US 50-E and use Hornet Drive (Howe/Power Inn exit) to turn around onto US-50 West
- For WB Business 80 to downtown, use Highway 160

***Motorists traveling to the Lake Tahoe area can avoid the project area congestion by taking I-80 E

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-2679** The 95th CST will provide Joint Hazard Assessment Team support in support of SFPD's Special Operations Bomb Squad at the 2014 Bay to Breakers Marathon. Radiation detection teams will survey background levels of radiation as part of the overall security plan. The 95th deployment will include advanced planning and pre-positioning prior to race day.
- **2014-LAW-2483** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2478** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NASCAR Racing Event at Sonoma Raceway June 20-22. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2798** El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H-72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.

CAL OES MISSIONS

Closed Cal OES Missions

- **2014-LAW-3680** On 5/25/2014 at 2037 hours, Air Force Rescue Coordination Center (AFRCC) advised of a Personal Locator Beacon (PLB) sounding at Reynolds Rock in Humboldt County. Cal OES LDO coordinating resources. **Update:** 5/26/2014, 0641 hours, HCSD advised they had deployed their Search & Rescue Posse along with BLM resources at 0530 hours. Update: 5/26/2014, 1113 hours, BLM Ranger advised SAR resources had made it to the reported coordinates and found that the registered owner had activated his PLB for another hiking party where a 14 year old male had suffered burns to his legs while attempting to light their camping stove. The injury was non-life threatening. California Highway Patrol helicopter was dispatched and airlifted the burn victim to an area hospital. BLM Ranger is transporting out the Victim's father and another hiker to their vehicle at Camp Matolle. The PLB device was de-activated and LDO confirmed with AFRCC that it was no longer sounding. **Mission Closed**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
